**Categories:** Lepic 2/22 to 3/22

Thanks, Beth.

I'm not available Feb. 24 or 25, but I could meet on Feb. 26.

Jill

Hi, Jill. I was actually going to reach out to you and Kelly today to try to set up a call to introduce you all to the folks in EPA HQ who are taking over the facilitation of the Independent Review. We have had a couple calls with them over the last several weeks to get them up to speed and to discuss roles and responsibilities within EPA. The primary points of contact from EPA HQ are Silvina Fonseca (Assessment and Remediation Division) and Greg Gervais (Technology Innovation and Field Services Division), but a couple other technical staff will be involved as well.

The following are some times when all the various EPA folks would be available for this introductory discussion:

Monday, Feb 24 – 10 to 11 pacific (11 to 12 mountain, 1 to 2 eastern)  
Monday, Feb 24 – 12 to 1 pacific (1 to 2 mountain, 3 to 4 eastern)  
Tuesday, Feb 25 – 9 to 10 pacific (10 to 11 mountain, 12 to 1 eastern)  
Tuesday, Feb 25 – 12:30 – 1:30 pacific (1:30 to 2:30 mountain, 3:30 to 4:30 eastern)  
Wednesday, Feb 26 – 12 to 1 pacific (1 to 2 mountain, 3 to 4 eastern)

Would any of these times work for you, Kelly, and anyone else from the Tribes who you would like to involve? Please let me know and I will set up a conference call bridge line.

Thanks and hope all is well with you.

Beth

Hi Beth,

Who is going to be handling this matter at EPA HQ? Do you know what the status is?

I was thinking of contacting whoever it is, and letting them know my office is only a few blocks from EPA so I could get together in person if that would be helpful. I'd like to get the independent review started if it isn't already.

Thanks,

Jill

**Subject:** RE: Independent Study

Hi, Kelly. I wanted to follow up again on the message below regarding the FMC Independent Review. We are still working with our Washington DC office on this issue and with the holidays upon us, it doesn't look like we will be able to convene a conference call with the Tribes on this until after the new year.

Also, thank you so much for submitting the revised budget break out. I told Ricardo Solis that it looked fine and it is my understanding that he is processing whatever paperwork is necessary. I appreciate your patience with this.

Take Care,

Beth

**Subject:** RE: Independent Study

Hi, Kelly. This is a follow up to the voicemail I left you earlier today. Due in part to resource constraints, we are working with our Washington DC office to shift EPA's lead coordination role for the FMC Independent Review from Region 10 to Headquarters. I apologize that this is taking longer than we anticipated. I am hopeful that maybe we can have a joint call with you all later next week or the following week to discuss the next steps for this important project.

Have you had the opportunity to submit a revised budget breakout to the Project Officer (Ricardo Solis) reflecting the shift in hours/dollars from the contract line item to in-house tribal resources? Having all these administrative pieces in place will help facilitate moving forward on this project.

Jon, we are ready to move forward. David is hired and waiting. When would be a good time to set up our next steps.

Have a great holiday weekend!

Thanks

Kelly
